SUBJECT INDEX

NOTE: Abstract Index follows Author Index

A

Abduction
Abduction defect associated with aberrant regeneration of the oculomotor nerve after intracranial aneurysm, 580

Abscess
Bilateral tuberculous abscesses on the face (eyelids) of a child, 717

***Acanthamoeba* sp.**
Confocal microscopy findings of *Acanthamoeba* keratitis, 119

Outbreak of keratitis presumed to be caused by *Acanthamoeba*, 129

Accommodation
Accommodation in primate eyes after implantation of refilled endocapsular balloon, 210

Acquired immunodeficiency syndrome
CD8+ T lymphocytes and cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome (correspondence), 455

Microsporidial keratoconjunctivitis caused by *Septata intestinalis* in a patient with the acquired immunodeficiency syndrome, 715

Presumed ocular and central nervous system tuberculosis in a patient with the acquired immunodeficiency syndrome, 217

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Squamous cell carcinoma of the conjunctiva in a patient with the acquired immunodeficiency syndrome, 94

Squamous cell carcinoma of the eyelid and the acquired immunodeficiency syndrome, 219

Unilateral optic neuritis caused by *Histoplasma capsulatum* in a patient with the acquired immunodeficiency syndrome, 324

Adenovirus
Possible consequences of shaking hands with your patients with epidemic keratoconjunctivitis, 711

Aging
Retinal pigment epithelial cell count, distribution, and correlations in normal human eyes, 181

Angiography
Advances in neuroimaging of the visual pathways, 690

Anterior chamber
Ultrasound biomicroscopic analysis of transient shallow anterior chamber in Vogt-Koyanagi-Harada syndrome, 720

Aphakia
Cataract surgery and intraocular lens implantation in children (correspondence), 224

Cataract surgery and intraocular lens implantation in children (correspondence), 226

Artery
Color Doppler imaging in patients with asymmetric glaucoma and unilateral visual field loss, 502

Diagnosis and treatment of an ophthalmic artery occlusion during an intralesional injection of corticosteroid into an eyelid capillary hemangioma, 638

Aspirin
The effect of aspirin on the visual outcome of nonarteritic anterior ischemic optic neuropathy, 450

Astigmatism
Analysis of astigmatic keratotomy with a 5.0-mm optical clear zone, 65

Analysis of astigmatic keratotomy with a 5.0-mm optical clear zone (correspondence), 731

Corneal astigmatism after phacoemulsification and lens implantation through unsutured scleral and corneal tunnel incisions, 57

Height measurement of astigmatic test surfaces by a keratoscope that uses plane geometry surface reconstruction, 668

Astrocytoma
Cerebellar astrocytoma manifesting as isolated, comitant esotropia in childhood, 584

Autoenucleation
Attempted autoenucleation, 726

B

Balloon catheter dilatation
Balloon catheter dilatation for treatment of congenital nasolacrimal duct obstruction, 304

Beta-blocker
Comparison of the effects of aqueous and gellan ophthalmic timolol on peak exercise performance in middle-aged men, 367

Optic nerve vasomotor effects of topical beta-adrenergic antagonists in rabbits (correspondence), 456

Biomicroscopy
Repair of Descemet's membrane detachment with the assistance of intraoperative ultrasound biomicroscopy, 718

Ultrasound biomicroscopic analysis of transient shallow anterior chamber in Vogt-Koyanagi-Harada syndrome, 720

Ultrasound biomicroscopy in pars planitis, 214

Blepharoptosis
Improvement in subjective visual function and quality of life outcome measures after blepharoptosis surgery, 677

Blood flow
A randomized, placebo-controlled, double-blind crossover study of the effect of pentoxifylline on ocular fundus pulsations, 169

Books, Software, and Electronic Media
Aries Ophthaline—Ophthalmology MEDLINE on CD-ROM. Knowledge Finder version 3.25, 337

Bennett's Ophthalmic Prescription Work, 3rd edition, by Wakefield, K. G. (ed.), 229

Blondes in Venetian Paintings, the Nine-Banded Armadillo, and Other Essays in Biochemistry, by Bloch, K., 230

The Boston Glaucoma Course. What's New For 1994 and Beyond, by Schuman, J. S., and Mattox, C., 594

Capitation Calculator, Version 1.0a. User's Manual, by Provider Solutions, Ltd., 102

Cataract Surgery. Technique, Complications, and Management, by Steinert, R. F. (ed.), 739

Childbed Fever. A Scientific Biography of Ignaz Semmelweis, by Carter, K. C., and Carter, B. R., 231

The Child's Eye. Diagnosis of Ophthalmic Disorders in Children, by Dhillon, B., and Millar, G. T. (eds.), 458

Congenital Cataracts, by Cotlier, E., Lambert, S., and Taylor, D. (eds.), 103

Cornea Color Atlas, by Krachmer, J. H., and Palay, D. A., 335

Eye and Skin Disease, by Mannis, M. J., Macsai, M. S., and Huntley, A. C. (eds.), 335

Eyelid Surgery. Principles and Techniques, by McCord, C. D., Jr., 459

Fundamentals for Ophthalmic Technical Personnel, by Cassin, B., 594

Julius Hirschberg, History of Ophthalmology. The Monographs, Volume One (Parts 1 and 2). The Eye and Man in Ancient Egypt, by Waugh, R. L., Jr., 103

Julius Hirschberg, History of Ophthalmology. The Monographs, Volume One (Parts 1 and 2). The Eye and Man in Ancient Egypt, 103; correction, 462

The Lacrimal System, by Hurwitz, J. J. (ed.), 593

Lentes de Contato na Clínica Oftalmológica, by Coral-Ghanem, C., and Kara-José, N., 230

The Medical Management of AIDS, 4th edition, by Sande, M. A., and Volberding, P. A., 461

MRI of the Eye and Orbit, by De Potter, P., Shields, J. A., and Shields, C. L. (eds.), 460

Neuro-Ophthalmology Review Manual, 4th edition, by Kline, L. B., and Bajandas, F. J. (eds.), 592

Orbital Surgery. A Conceptual Approach, by Rootman, J., Stewart, B., and Goldberg, R. A., 736

Patient Centered Comanagement in Refractive Surgery, by Grene, R. B., 461

Pediatric Neuro-Ophthalmology, by Brodsky, M. C., Baker, R. S., and Hamed, L. M., 592

Pediatric Ophthalmology and Strabismus, by Wright, K. W. (ed.), 739

Perception, by Rock, I., 336

Phacoemulsification. New Technology and Clinical Application, by Fine, I. H., 595

Practice Without Malpractice in Ophthalmology. A Compendium of Risk Management Essays, by Bettman, J. W., Sr., and Demorest, B. H., 229

QuickScan Reviews With MedInfo Manager, 736

The Refractory Glaucomas, by El Sayyad, F., Spaeth, G. L., Shields, M. B., and Hitchings, R. A., 458

Retina. The Fundamentals, by Wu, G., 738

Source Book of Ophthalmology, by Albert, D. M., Norton, E. W. D., and Hurtes, R., 461

Surgical Management in External Disease of the Eye, by Stenson, S. M. (ed.), 228

Visual Development, by Daw, N. W., 230

C

Candida sp.
Choroidal neovascularization secondary to *Candida albicans* chorioretinitis, 643

Capsulorhexis
Dislocation of the lens nucleus into the vitreous cavity after standard hydrodissection, 706

Carbidopa
Effect of levodopa and carbidopa on recovery of visual function in patients with nonarteritic anterior ischemic optic neuropathy of longer than six months' duration, 77

Carcinoma
Squamous cell carcinoma of the conjunctiva in a patient with the acquired immunodeficiency syndrome, 94

Squamous cell carcinoma of the eyelid and the acquired immunodeficiency syndrome, 219

Carotid artery
Central retinal artery occlusion after manipulation of the neck by a chiropractor, 321

Cataract
Accommodation in primate eyes after implantation of refilled endocapsular balloon, 210

Autosomal dominant zonular cataract with sutural opacities in a four-generation family, 162

Cataract surgery and intraocular lens implantation in children (correspondence), 224

Cataract surgery and intraocular lens implantation in children (correspondence), 226

Coagulase-negative *Staphylococcus* endophthalmitis after cataract surgery with intraocular vancomycin, 318

Corneal astigmatism after phacoemulsification and lens implantation through unsutured scleral and corneal tunnel incisions, 57

Five-year follow-up of the Fluorouracil Filtering Surgery Study, 349

Ultrasound biomicroscopy in pars planitis, 214

Cefazolin
Fluoroquinolones in the treatment of bacterial keratitis, 712

Central retinal artery
Central retinal artery occlusion after manipulation of the neck by a chiropractor, 321

Chemotherapy
Visual function after laser hyperthermia and chemotherapy for macular retinoblastoma, 582

Children
Balloon catheter dilatation for treatment of congenital nasolacrimal duct obstruction, 304

Cataract surgery and intraocular lens implantation in children (correspondence), 224

Cataract surgery and intraocular lens implantation in children (correspondence), 226

Cerebellar astrocytoma manifesting as isolated, comitant esotropia in childhood, 584

Choroidal neovascular membrane associated with optic nerve head drusen in a child, 215

Congenital absence of the inferior rectus muscle, 327

Chorioretinitis
Choroidal neovascularization secondary to *Candida albicans* chorioretinitis, 643

Chorioretinopathy
Choroidal capillary and venous congestion in central serous chorioretinopathy, 26

Choroid
Autosomal dominant central areolar choroidal dystrophy caused by a mutation in codon 142 in the peripherin/RDS gene, 623

Choroidal capillary and venous congestion in central serous chorioretinopathy, 26

Choroidal hemorrhage associated with systemic tissue plasminogen activator, 577

Choroidal neovascular membrane associated with optic nerve head drusen in a child, 215

Choroidal neovascularization secondary to *Candida albicans* chorioretinitis, 643

Cobalt-60 treatment of choroidal hemangiomas, 190

Focal posttraumatic choroidal granulomatous inflammation, 397

Ocular involvement in Epstein-Barr virus-associated T-cell lymphoma, 322

Presumed ocular and central nervous system tuberculosis in a patient with the acquired immunodeficiency syndrome, 217

Spontaneous regression and successful laser prophylaxis in progressive outer retinal necrosis syndrome, 723

Ultrasound biomicroscopic analysis of transient shallow anterior chamber in Vogt-Koyanagi-Harada syndrome, 720

Chromatrope stain
Diagnosis of microsporidial keratitis by confocal microscopy and the chromatrope stain, 89

Ciliary body
Ocular signs and symptoms caused by exposure to sarin gas, 209

Ultrasound biomicroscopic study of ciliary body thickness after topical application of pharmacologic agents, 319

Color Doppler imaging
Color Doppler imaging in patients with asymmetric glaucoma and unilateral visual field loss, 502

Computed tomography
Advances in neuroimaging of the visual pathways, 690

Congenital absence of the inferior rectus muscle, 327

Cone
Clinical study of a large family with autosomal dominant progressive cone degeneration, 1

Mapping of autosomal dominant cone degeneration to chromosome 17p, 13

Conjunctiva
An immunohistochemical study of topical cyclosporine in vernal keratoconjunctivitis, 156

Microsporidial keratoconjunctivitis caused by *Septata intestinalis* in a patient with the acquired immunodeficiency syndrome, 715

Ocular signs and symptoms caused by exposure to sarin gas, 209

Possible consequences of shaking hands with your patients with epidemic keratoconjunctivitis, 711

A randomized trial comparing mitomycin C and conjunctival autograft after excision of primary pterygium (correspondence), 333

Squamous cell carcinoma of the conjunctiva in a patient with the acquired immunodeficiency syndrome, 94

Supratarsal injection of corticosteroid in the treatment of refractory vernal keratoconjunctivitis, 243

Contact lens
Corneal pannus associated with contact lens wear, 540

Contrast sensitivity
Contrast sensitivity and other vision tests in the optic neuritis treatment trial, 547

Cornea
Analysis of astigmatic keratotomy with a 5.0-mm optical clear zone, 65

Analysis of astigmatic keratotomy with a 5.0-mm optical clear zone (correspondence), 731

Annular keratotomy for the treatment of painful bullous keratopathy, 93

Bilateral simultaneous corneal graft rejection after influenza vaccination, 708

Confocal microscopy findings of *Acanthamoeba* keratitis, 119

Congenital entropion and congenital corneal ulcer, 329

Corneal astigmatism after phacoemulsification and lens implantation through unsutured scleral and corneal tunnel incisions, 57

Corneal endothelial changes in schizophrenic patients with long-term administration of major tranquilizers, 84

Corneal endothelial deposits in patients with cytomegalovirus retinitis, 391

Corneal pannus associated with contact lens wear, 540

Corneal scarring after photorefractive keratectomy in a penetrating keratoplasty, 570

Corneoscleral laceration caused by air-bag trauma, 709

Cystic hydrops and spontaneous perforation in Fuchs' superficial marginal keratitis, 91

Diagnosis of microsporidial keratitis by confocal microscopy and the chromatrope stain, 89

Excimer laser in situ keratomileusis under a corneal flap for myopia of 2 to 20 diopters, 143

Fluoroquinolones in the treatment of bacterial keratitis, 712

Height measurement of astigmatic test surfaces by a keratoscope that uses plane geometry surface reconstruction, 668

An immunohistochemical study of topical cyclosporine in vernal keratoconjunctivitis, 156

Late onset of corneal scar after excimer laser photorefractive keratectomy, 529

Mapping of Reis-Bücklers' corneal dystrophy to chromosome 5q, 384

Microsporidial keratoconjunctivitis caused by *Septata intestinalis* in a patient with the acquired immunodeficiency syndrome, 715

Ocular symptoms and signs associated with suramin sodium treatment for metastatic cancer of the prostate, 291

Outbreak of keratitis presumed to be caused by *Acanthamoeba*, 129

Possible consequences of shaking hands with your patients with epidemic keratoconjunctivitis, 711

Recurrent corneal ulcerations associated with smokeable methamphetamine abuse, 571

Retreatment after excimer laser photorefractive keratectomy, 250

Supratarsal injection of corticosteroid in the treatment of refractory vernal keratoconjunctivitis, 243

Corneal pannus
Corneal pannus associated with contact lens wear, 540

Corrections
Julius Hirschberg, History of Ophthalmology. The Monographs, Volume One (Parts 1 and 2). The Eye and Man in Ancient Egypt, 103; correction, 462

Local therapy for cytomegalovirus retinopathy, 120:376; correction, 104

Macular epiretinal membrane formation and treated epiretinal breaks, 120:480; correction (correspondance), 334

Corticosteroid
Bilateral simultaneous corneal graft rejection after influenza vaccination, 708

Diagnosis and treatment of an ophthalmic artery occlusion during an intralesional injection of corticosteroid into an eyelid capillary hemangioma, 638

Late onset of corneal scar after excimer laser photorefractive keratectomy, 529

Supratarsal injection of corticosteroid in the treatment of refractory vernal keratoconjunctivitis, 243

Cryotherapy
Macular epiretinal membrane formation and treated epiretinal breaks, 120:480; correction (correspondance), 334

Cyclosporine
An immunohistochemical study of topical cyclosporine in vernal keratoconjunctivitis, 156

Cyst
Cystic hydrops and spontaneous perforation in Fuchs' superficial marginal keratitis, 91

Echographic evaluation of primary cysts of the iris pigment epithelium (correspondence), 100

Spontaneous extrusion of extraocular cysticercus cysts, 438

Cytomegalovirus retinitis
CD8+ T lymphocytes and cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome (correspondence), 455

Corneal endothelial deposits in patients with cytomegalovirus retinitis, 391

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

D

Dacryocystorhinostomy
Simultaneous silicone intubation through the osteotomy and the nasolacrimal duct during dacryocystorhinostomy, 586

Descemet's membrane
Repair of Descemet's membrane detachment with the assistance of intraoperative ultrasound biomicroscopy, 718

Diabetes mellitus
Vitrectomy for diabetic macular edema associated with a thickened and taut posterior hyaloid membrane, 405

Diabetic retinopathy
Recombinant hirudin for prevention of experimental postoperative intraocular fibrin, 554

Vitrectomy for diabetic macular edema associated with a thickened and taut posterior hyaloid membrane, 405

DNA
Postmortem diagnosis of *Fusarium* panophthalmitis by the polymerase chain reaction, 221

Drusen
Choroidal neovascular membrane associated with optic nerve head drusen in a child, 215

Dystrophy
Autosomal dominant central areolar choroidal dystrophy caused by a mutation in codon 142 in the peripherin/RDS gene, 623

Mapping of Reis-Bücklers' corneal dystrophy to chromosome 5q, 384

E

Echography
Echographic evaluation of primary cysts of the iris pigment epithelium (correspondence), 100

Edema
Annular keratotomy for the treatment of painful bullous keratopathy, 93

Vitrectomy for diabetic macular edema associated with a thickened and taut posterior hyaloid membrane, 405

Editorials
Centenary of the Japanese Ophthalmological Society and the American Academy of Ophthalmology (STRAATSMA, B. R.), 568

In vivo confocal microscopy and *Acanthamoeba* keratitis (CAVANAGH, H. D., and McCULLEY, J. P.), 207

Intraocular lens implantation in children (correspondence), 224

New knowledge you can use (STRAATSMA, B. R.), 435

Sensory experiences with posterior vitreous detachment (MEREDITH, T. A.), 687

Endophthalmitis
Coagulase-negative *Staphylococcus* endophthalmitis after cataract surgery with intraocular vancomycin, 318

Comparative treatment of experimental *Staphylococcus aureus* endophthalmitis, 310

Endothelium
Corneal endothelial changes in schizophrenic patients with long-term administration of major tranquilizers, 84

Corneal endothelial deposits in patients with cytomegalovirus retinitis, 391

Entropion
Congenital entropion and congenital corneal ulcer, 329

Epiretinal membrane
Imaging of epiretinal membranes in macular holes by scanning laser ophthalmoscopy, 177

Epstein-Barr virus
Ocular involvement in Epstein-Barr virus-associated T-cell lymphoma, 322

Esotropia
Cerebellar astrocytoma manifesting as isolated, comitant esotropia in childhood, 584

Extracorporeal membrane oxygenation
Prevalence of retinal hemorrhages in infants after extracorporeal membrane oxygenation, 297

Eyelid
Bilateral tuberculous abscesses on the face (eyelids) of a child, 717

Clinical features of Graves' ophthalmopathy in an incidence cohort, 284

Congenital entropion and congenital corneal ulcer, 329

Diagnosis and treatment of an ophthalmic artery occlusion during an intralesional injection of corticosteroid into an eyelid capillary hemangioma, 638

Improvement in subjective visual function and quality of life outcome measures after blepharoptosis surgery, 677

Merkel cell carcinoma of the eyelid, 331

Squamous cell carcinoma of the eyelid and the acquired immunodeficiency syndrome, 219

F

Fibrin
Recombinant hirudin for prevention of experimental postoperative intraocular fibrin, 554

Filtering surgery
Five-year follow-up of the Fluorouracil Filtering Surgery Study, 349

Fluoroquinolones
Fluoroquinolones in the treatment of bacterial keratitis, 712

Fluorouracil
Five-year follow-up of the Fluorouracil Filtering Surgery Study, 349

Fuch's superficial marginal keratitis
Cystic hydrops and spontaneous perforation in Fuchs' superficial marginal keratitis, 91

Fumagillin
Diagnosis of microsporidial keratitis by confocal microscopy and the chromatrope stain, 89

Microsporidial keratoconjunctivitis caused by *Septata intestinalis* in a patient with the acquired immunodeficiency syndrome, 715

***Fusarium* sp.**
Postmortem diagnosis of *Fusarium* panophthalmitis by the polymerase chain reaction, 221

G

Ganciclovir
Local therapy for cytomegalovirus retinopathy, 120:376; correction, 104

Ganglion cell
Delayed functional loss in glaucoma. LII Edward Jackson Memorial Lecture, 473

Genetics
Autosomal dominant central areolar choroidal dystrophy caused by a mutation in codon 142 in the peripherin/RDS gene, 623

Autosomal dominant zonular cataract with sutural opacities in a four-generation family, 162

Clinical study of a large family with autosomal dominant progressive cone degeneration, 1

Diagnosis of oculocutaneous albinism with molecular analysis, 724

Mapping of autosomal dominant cone degeneration to chromosome 17p, 13

Mapping of Reis-Bücklers' corneal dystrophy to chromosome 5q, 384

p53 gene and cell cycling in uveal melanoma, 561

Retinitis punctata albescens associated with the Arg135Trp mutation in the rhodopsin gene, 19

Glaucoma
Color Doppler imaging in patients with asymmetric glaucoma and unilateral visual field loss, 502

Comparison between tomographic scanning evaluation and photographic measurement of the neuroretinal rim, 494

Comparison of methods to evaluate the optic nerve head and nerve fiber layer for glaucomatous change, 659

Comparison of the effects of aqueous and gellan ophthalmic timolol on peak exercise performance in middle-aged men, 367

Delayed functional loss in glaucoma. LII Edward Jackson Memorial Lecture, 473

Essential thrombocythemia and central retinal vein occlusion with neovascular glaucoma, 728

Five-year follow-up of the Fluorouracil Filtering Surgery Study, 349

Incidence of acute angle-closure glaucoma after pharmacologic mydriasis (correspondence), 733

Neural networks to identify glaucoma with structural and functional measurements, 511

Optic nerve vasomotor effects of topical beta-adrenergic antagonists in rabbits (correspondence), 456

Prevent Blindness America visual field screening study (correspondence), 590

Prevent Blindness America visual field screening study (correspondence), 735

Retinal nerve fiber layer assessment by scanning laser polarimetry and standardized photography, 484

Timolol hemihydrate vs timolol maleate to treat ocular hypertension and open-angle glaucoma, 522

Unilateral open-angle glaucoma secondary to idiopathic dilated episcleral veins, 587

Graft
Bilateral simultaneous corneal graft rejection after influenza vaccination, 708

Corneal scarring after photorefractive keratectomy in a penetrating keratoplasty, 570

Graves' ophthalmopathy
The chronology of Graves' ophthalmopathy in an incidence cohort, 426

Clinical features of Graves' ophthalmopathy in an incidence cohort, 284

The treatment of Graves' ophthalmopathy in an incidence cohort, 200

H

Hemangioma
Cobalt-60 treatment of choroidal hemangiomas, 190

Diagnosis and treatment of an ophthalmic artery occlusion during an intralesional injection of corticosteroid into an eyelid capillary hemangioma, 638

Hemangiopericytoma
Hemangiopericytoma of the inner canthus, 445

Hemianopsia
Functional magnetic resonance imaging in homonymous hemianopsia, 258

Hemorrhage
Choroidal hemorrhage associated with systemic tissue plasminogen activator, 577

Prevalence of retinal hemorrhages in infants after extracorporeal membrane oxygenation, 297

Surgical removal of submacular hemorrhage using tissue plasminogen activator and perfluorocarbon liquid, 267

Herpesvirus
Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Hirudin
Recombinant hirudin for prevention of experimental postoperative intraocular fibrin, 554

***Histoplasma* sp.**
Unilateral optic neuritis caused by *Histoplasma capsulatum* in a patient with the acquired immunodeficiency syndrome, 324

HLA
Clinical features and associated systemic diseases of HLA-B27 uveitis, 47

Human immunodeficiency virus
CD8+ T lymphocytes and cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome (correspondence), 455

Corneal endothelial deposits in patients with cytomegalovirus retinitis, 391

Diagnosis of microsporidial keratitis by confocal microscopy and the chromatrope stain, 89

Squamous cell carcinoma of the conjunctiva in a patient with the acquired immunodeficiency syndrome, 94

Hyaloid membrane
Vitrectomy for diabetic macular edema associated with a thickened and taut posterior hyaloid membrane, 405

Hydrodissection
Dislocation of the lens nucleus into the vitreous cavity after standard hydrodissection, 706

Hypopyon
Postoperative hypopyon after intravitreal bovine thrombin for macular hole surgery, 575

Hypoxia
Corneal pannus associated with contact lens wear, 540

I

Immunology
An immunohistochemical study of topical cyclosporine in vernal keratoconjunctivitis, 156

Infants
Congenital entropion and congenital corneal ulcer, 329

Prevalence of retinal hemorrhages in infants after extracorporeal membrane oxygenation, 297

Inflammation
Focal posttraumatic choroidal granulomatous inflammation, 397

Injury
Focal posttraumatic choroidal granulomatous inflammation, 397

Golf-related ocular injuries, 437

Intraocular lens
Cataract surgery and intraocular lens implantation in children (correspondence), 224

Cataract surgery and intraocular lens implantation in children (correspondence), 226

Condensation of silicone oil on the posterior surface of a silicone intraocular lens during vitrectomy, 574

Corneal astigmatism after phacoemulsification and lens implantation through unsutured scleral and corneal tunnel incisions, 57

Stress fractures after folding an acrylic intraocular lens, 572

Intraocular pressure
Comparison of the effects of aqueous and gellan ophthalmic timolol on peak exercise performance in middle-aged men, 367

Delayed functional loss in glaucoma. LII Edward Jackson Memorial Lecture, 473

Five-year follow-up of the Fluorouracil Filtering Surgery Study, 349

Increased intraocular pressure after macular hole surgery, 615

Retinal nerve fiber layer assessment by scanning laser polarimetry and standardized photography, 484

Timolol hemihydrate vs timolol maleate to treat ocular hypertension and open-angle glaucoma, 522

Iris
Echographic evaluation of primary cysts of the iris pigment epithelium (correspondence), 100

Ischemia
Choroidal capillary and venous congestion in central serous chorioretinopathy, 26

Effect of levodopa and carbidopa on recovery of visual function in patients with nonarteritic anterior ischemic optic neuropathy of longer than six months' duration, 77

J

Jackson, Edward
Delayed functional loss in glaucoma. LII Edward Jackson Memorial Lecture, 473

K

Keratitis
Confocal microscopy findings of *Acanthamoeba* keratitis, 119

Cystic hydrops and spontaneous perforation in Fuchs' superficial marginal keratitis, 91

Diagnosis of microsporidial keratitis by confocal microscopy and the chromatrope stain, 89

Fluoroquinolones in the treatment of bacterial keratitis, 712

Outbreak of keratitis presumed to be caused by *Acanthamoeba*, 129

Keratoconjunctivitis
An immunohistochemical study of topical cyclosporine in vernal keratoconjunctivitis, 156

Microsporidial keratoconjunctivitis caused by *Septata intestinalis* in a patient with the acquired immunodeficiency syndrome, 715

Possible consequences of shaking hands with your patients with epidemic keratoconjunctivitis, 711

Supratarsal injection of corticosteroid in the treatment of refractory vernal keratoconjunctivitis, 243

Keratomileusis
Excimer laser in situ keratomileusis under a corneal flap for myopia of 2 to 20 diopters, 143

Keratopathy
Annular keratotomy for the treatment of painful bullous keratopathy, 93

Microsporidial keratoconjunctivitis caused by *Septata intestinalis* in a patient with the acquired immunodeficiency syndrome, 715

Keratoscope
Height measurement of astigmatic test surfaces by a keratoscope that uses plane geometry surface reconstruction, 668

Keratotomy
Analysis of astigmatic keratotomy with a 5.0-mm optical clear zone, 65

Analysis of astigmatic keratotomy with a 5.0-mm optical clear zone (correspondence), 731

Annular keratotomy for the treatment of painful bullous keratopathy, 93

L

Laser
Choroidal neovascularization secondary to *Candida albicans* chorioretinitis, 643

Comparison between tomographic scanning evaluation and photographic measurement of the neuroretinal rim, 494

Comparison of results of excimer laser correction of all degrees of myopia at 12 months postoperatively, 372

Corneal scarring after photorefractive keratectomy in a penetrating keratoplasty, 570

Essential thrombocythemia and central retinal vein occlusion with neovascular glaucoma, 728

Excimer laser in situ keratomileusis under a corneal flap for myopia of 2 to 20 diopters, 143

Initial clinical experience with an erbium:YAG laser for vitreoretinal surgery, 414

Late onset of corneal scar after excimer laser photorefractive keratectomy, 529

Retinal nerve fiber layer assessment by scanning laser polarimetry and standardized photography, 484

Retreatment after excimer laser photorefractive keratectomy, 250

Spontaneous regression and successful laser prophylaxis in progressive outer retinal necrosis syndrome, 723

Visual function after laser hyperthermia and chemotherapy for macular retinoblastoma, 582

Lens
Accommodation in primate eyes after implantation of refilled endocapsular balloon, 210

Dislocation of the lens nucleus into the vitreous cavity after standard hydrodissection, 706

Leukemia
Ocular manifestations of hairy cell leukemia with dramatic response to 2-chloro-deoxy-adenosine, 97

Levodopa
Effect of levodopa and carbidopa on recovery of visual function in patients with nonarteritic anterior ischemic optic neuropathy of longer than six months' duration, 77

Lymphocyte
CD8+ T lymphocytes and cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome (correspondence), 455

Lymphoma
Intraocular levels of methotrexate after intravenous administration, 442

M

Macula
Clinicopathologic correlation of surgically removed macular hole opercula (correspondence), 453

Cobalt-60 treatment of choroidal hemangiomas, 190

Imaging of epiretinal membranes in macular holes by scanning laser ophthalmoscopy, 177

Increased intraocular pressure after macular hole surgery, 615

Macular epiretinal membrane formation and treated epiretinal breaks, 120:480; correction (correspondance), 334

Postoperative hypopyon after intravitreal bovine thrombin for macular hole surgery, 575

Prospective randomized trial of vitrectomy or observation for stage 2 macular holes, 605

Spontaneous regression and successful laser prophylaxis in progressive outer retinal necrosis syndrome, 723

Surgical removal of submacular hemorrhage using tissue plasminogen activator and perfluorocarbon liquid, 267

Vitrectomy for diabetic macular edema associated with a thickened and taut posterior hyaloid membrane, 405

Macular degeneration
Surgical removal of submacular hemorrhage using tissue plasminogen activator and perfluorocarbon liquid, 267

Macular retinoblastoma
Visual function after laser hyperthermia and chemotherapy for macular retinoblastoma, 582

Macular scleral buckle
Treatment of maculopathy associated with optic disk pit by sponge explant, 630

Maculopathy
Treatment of maculopathy associated with optic disk pit by sponge explant, 630

Magnetic resonance imaging
Advances in neuroimaging of the visual pathways, 690

Functional magnetic resonance imaging in homonymous hemianopsia, 258

Melanoma
Histoiogic findings and prognosis of uveal malignant melanoma in Japanese patients, 276

p53 gene and cell cycling in uveal melanoma, 561

Merkel cell carcinoma
Merkel cell carcinoma of the eyelid, 331

Methotrexate
Intraocular levels of methotrexate after intravenous administration, 442

Microscopy
Clinicopathologic correlation of surgically removed macular hole opercula (correspondence), 453

Confocal microscopy findings of *Acanthamoeba* keratitis, 119

Outbreak of keratitis presumed to be caused by *Acanthamoeba*, 129

Microsporidia
Diagnosis of microsporidial keratitis by confocal microscopy and the chromatrope stain, 89

Migraine
Treatment of migraine headache after ocular surgery with intravenous metoclopramide hydrochloride, 96

Miosis
Ocular signs and symptoms caused by exposure to sarin gas, 209

Mitomycin C
A randomized trial comparing mitomycin C and conjunctival autograft after excision of primary pterygium (correspondence), 333

Muscle
Abduction defect associated with aberrant regeneration of the oculomotor nerve after intracranial aneurysm, 580

Congenital absence of the inferior rectus muscle, 327

Elevation deficit caused by accessory extraocular muscle, 444

Myopia
Comparison of results of excimer laser correction of all degrees of myopia at 12 months postoperatively, 372

Corneal scarring after photorefractive keratectomy in a penetrating keratoplasty, 570

Excimer laser in situ keratomileusis under a corneal flap for myopia of 2 to 20 diopters, 143

Late onset of corneal scar after excimer laser photorefractive keratectomy, 529

Retreatment after excimer laser photorefractive keratectomy, 250

N

Nasolacrimal duct obstruction
Balloon catheter dilatation for treatment of congenital nasolacrimal duct obstruction, 304

Neovascularization
Choroidal neovascularization secondary to *Candida albicans* chorioretinitis, 643

Nerve fiber
Comparison of methods to evaluate the optic nerve head and nerve fiber layer for glaucomatous change, 659

Retinal nerve fiber layer assessment by scanning laser polarimetry and standardized photography, 484

Neuroimaging
Advances in neuroimaging of the visual pathways, 690

O

Occlusion
Central retinal artery occlusion after manipulation of the neck by a chiropractor, 321

Diagnosis and treatment of an ophthalmic artery occlusion during an intralesional injection of corticosteroid into an eyelid capillary hemangioma, 638

Essential thrombocythemia and central retinal vein occlusion with neovascular glaucoma, 728

Oculocutaneous albinism
Diagnosis of oculocutaneous albinism with molecular analysis, 724

Oculomotor nerve
Abduction defect associated with aberrant regeneration of the oculomotor nerve after intracranial aneurysm, 580

Opacity
Autosomal dominant zonular cataract with sutural opacities in a four-generation family, 162

Operculum
Clinicopathologic correlation of surgically removed macular hole opercula (correspondence), 453

Ophthalmoscopy
Diagnosis and treatment of an ophthalmic artery occlusion during an intralesional injection of corticosteroid into an eyelid capillary hemangioma, 638

Imaging of epiretinal membranes in macular holes by scanning laser ophthalmoscopy, 177

Optic disk
Comparison between tomographic scanning evaluation and photographic measurement of the neuroretinal rim, 494

Treatment of maculopathy associated with optic disk pit by sponge explant, 630

Optic nerve
Choroidal neovascular membrane associated with optic nerve head drusen in a child, 215

Comparison of methods to evaluate the optic nerve head and nerve fiber layer for glaucomatous change, 659

Microvasculature of the human optic nerve (correspondence), 452

Neural networks to identify glaucoma with structural and functional measurements, 511

Optic nerve vasomotor effects of topical beta-adrenergic antagonists in rabbits (correspondence), 456

Reading-evoked visual dimming, 212

Optic neuritis

Contrast sensitivity and other vision tests in the optic neuritis treatment trial, 547

Unilateral optic neuritis caused by *Histoplasma capsulatum* in a patient with the acquired immunodeficiency syndrome, 324

Optic neuropathy

The effect of aspirin on the visual outcome of nonarteritic anterior ischemic optic neuropathy, 450

Effect of levodopa and carbidopa on recovery of visual function in patients with nonarteritic anterior ischemic optic neuropathy of longer than six months' duration, 77

Orbit

Solitary fibrous tumor of the orbit, 447

P

***Papillomavirus* sp.**

Squamous cell carcinoma of the eyelid and the acquired immunodeficiency syndrome, 219

Pars plana vitrectomy

Condensation of silicone oil on the posterior surface of a silicone intraocular lens during vitrectomy, 574

Postoperative hypopyon after intravitreal bovine thrombin for macular hole surgery, 575

Pars planitis

Ultrasound biomicroscopy in pars planitis, 214

Penetrating keratoplasty

Bilateral simultaneous corneal graft rejection after influenza vaccination, 708

Corneal scarring after photorefractive keratectomy in a penetrating keratoplasty, 570

Pentoxifylline

A randomized, placebo-controlled, double-blind crossover study of the effect of pentoxifylline on ocular fundus pulsations, 169

Perfluorocarbon liquid

Surgical removal of submacular hemorrhage using tissue plasminogen activator and perfluorocarbon liquid, 267

Perspectives

Local therapy for cytomegalovirus retinopathy, 120:376; correction, 104

Phacoemulsification

Corneal astigmatism after phacoemulsification and lens implantation through unsutured scleral and corneal tunnel incisions, 57

Photocoagulation

Choroidal neovascularization secondary to *Candida albicans* chorioretinitis, 643

Essential thrombocythemia and central retinal vein occlusion with neovascular glaucoma, 728

Macular epiretinal membrane formation and treated epiretinal breaks, 120:480; correction (correspondance), 334

Spontaneous regression and successful laser prophylaxis in progressive outer retinal necrosis syndrome, 723

Photorefractive keratectomy

Comparison of results of excimer laser correction of all degrees of myopia at 12 months postoperatively, 372

Corneal scarring after photorefractive keratectomy in a penetrating keratoplasty, 570

Late onset of corneal scar after excimer laser photorefractive keratectomy, 529

Retreatment after excimer laser photorefractive keratectomy, 250

Pigment epithelium

Echographic evaluation of primary cysts of the iris pigment epithelium (correspondence), 100

Polymerase chain reaction

Postmortem diagnosis of *Fusarium* panophthalmitis by the polymerase chain reaction, 221

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Progessive outer retinal necrosis syndrome

Spontaneous regression and successful laser prophylaxis in progressive outer retinal necrosis syndrome, 723

Proliferative vitreoretinopathy

Recombinant hirudin for prevention of experimental postoperative intraocular fibrin, 554

Pterygium

A randomized trial comparing mitomycin C and conjunctival autograft after excision of primary pterygium (correspondence), 333

Pupil

Incidence of acute angle-closure glaucoma after pharmacologic mydriasis (correspondence), 733

Ocular signs and symptoms caused by exposure to sarin gas, 209

R

Radiation therapy

Cobalt-60 treatment of choroidal hemangiomas, 190

Refraction

Ocular symptoms and signs associated with suramin sodium treatment for metastatic cancer of the prostate, 291

Refractive keratectomy

Comparison of results of excimer laser correction of all degrees of myopia at 12 months postoperatively, 372

Reis-Bücklers' corneal dystrophy

Mapping of Reis-Bücklers' corneal dystrophy to chromosome 5q, 384

Retina

Choroidal capillary and venous congestion in central serous chorioretinopathy, 26

Essential thrombocythemia and central retinal vein occlusion with neovascular glaucoma, 728

Initial clinical experience with an erbium:YAG laser for vitreoretinal surgery, 414

Macular epiretinal membrane formation and treated epiretinal breaks, 120:480; correction (correspondance), 334

Ocular involvement in Epstein-Barr virus-associated T-cell lymphoma, 322

Prevalence of retinal hemorrhages in infants after extracorporeal membrane oxygenation, 297

Retinal nerve fiber layer assessment by scanning laser polarimetry and standardized photography, 484

Retinal pigment epithelial cell count, distribution, and correlations in normal human eyes, 181

Retinitis punctata albescens associated with the Arg135Trp mutation in the rhodopsin gene, 19

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Spontaneous regression and successful laser prophylaxis in progressive outer retinal necrosis syndrome, 723

Surgical removal of submacular hemorrhage using tissue plasminogen activator and perfluorocarbon liquid, 267

Retinal detachment

Cobalt-60 treatment of choroidal hemangiomas, 190

Ocular involvement in Epstein-Barr virus-associated T-cell lymphoma, 322

Retinal pigment epithelium

Retinal pigment epithelial cell count, distribution, and correlations in normal human eyes, 181

Retinitis

Retinitis punctata albescens associated with the Arg135Trp mutation in the rhodopsin gene, 19

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Retinitis pigmentosa

Retinitis punctata albescens associated with the Arg135Trp mutation in the rhodopsin gene, 19

Rhodopsin

Retinitis punctata albescens associated with the Arg135Trp mutation in the rhodopsin gene, 19

S

Sclera

Corneal astigmatism after phacoemulsification and lens implantation through unsutured scleral and corneal tunnel incisions, 57

***Septata* sp.**

Microsporidial keratoconjunctivitis caused by *Septata intestinalis* in a patient with the acquired immunodeficiency syndrome, 715

***Staphylococcus* sp.**

Coagulase-negative *Staphylococcus* endophthalmitis after cataract surgery with intraocular vancomycin, 318

Comparative treatment of experimental *Staphylococcus aureus* endophthalmitis, 310

Strabismus

Elevation deficit caused by accessory extraocular muscle, 444

Suramin sodium

Ocular symptoms and signs associated with suramin sodium treatment for metastatic cancer of the prostate, 291

T

T-cell lymphoma

Ocular involvement in Epstein-Barr virus-associated T-cell lymphoma, 322

Thrombin

Postoperative hypopyon after intravitreal bovine thrombin for macular hole surgery, 575

Thrombocythemia

Essential thrombocythemia and central retinal vein occlusion with neovascular glaucoma, 728

Timolol

Comparison of the effects of aqueous and gellan ophthalmic timolol on peak exercise performance in middle-aged men, 367

Optic nerve vasomotor effects of topical beta-adrenergic antagonists in rabbits (correspondence), 456

Timolol hemihydrate vs timolol maleate to treat ocular hypertension and open-angle glaucoma, 522

Tissue plasminogen activator

Choroidal hemorrhage associated with systemic tissue plasminogen activator, 577

Surgical removal of submacular hemorrhage using tissue plasminogen activator and perfluorocarbon liquid, 267

***Toxoplasma* sp.**

Quantitative polymerase chain reaction in diagnosing ocular toxoplasmosis, 441

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Toxoplasmosis

Quantitative polymerase chain reaction in diagnosing ocular toxoplasmosis, 441

Trabeculectomy

Five-year follow-up of the Fluorouracil Filtering Surgery Study, 349

Tranquilizer

Corneal endothelial changes in schizophrenic patients with long-term administration of major tranquilizers, 84

Transforming growth factor

Increased intraocular pressure after macular hole surgery, 615

Trauma

Corneoscleral laceration caused by air-bag trauma, 709

Focal posttraumatic choroidal granulomatous inflammation, 397

Tuberculosis

Bilateral tuberculous abscesses on the face (eyelids) of a child, 717

Presumed ocular and central nervous system tuberculosis in a patient with the acquired immunodeficiency syndrome, 217

Tumor

Cobalt-60 treatment of choroidal hemangiomas, 190

Hemangiopericytoma of the inner canthus, 445

Histologic findings and prognosis of uveal malignant melanoma in Japanese patients, 276

Merkel cell carcinoma of the eyelid, 331

Ocular symptoms and signs associated with suramin sodium treatment for metastatic cancer of the prostate, 291

p53 gene and cell cycling in uveal melanoma, 561

Reading-evoked visual dimming, 212

Solitary fibrous tumor of the orbit, 447

U

Ulcer

Congenital entropion and congenital corneal ulcer, 329

Recurrent corneal ulcerations associated with smokeable methamphetamine abuse, 571

Ultrasound biomicroscopy

Ultrasound biomicroscopic study of ciliary body thickness after topical application of pharmacologic agents, 319

Uvea

Histologic findings and prognosis of uveal malignant melanoma in Japanese patients, 276

Presumed ocular and central nervous system tuberculosis in a patient with the acquired immunodeficiency syndrome, 217

p53 gene and cell cycling in uveal melanoma, 561

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Ultrasound biomicroscopic analysis of transient shallow anterior chamber in Vogt-Koyanagi-Harada syndrome, 720

Uveal effusion syndrome associated with primary pulmonary hypertension and vomiting, 578

Uveal effusion

Uveal effusion syndrome associated with primary pulmonary hypertension and vomiting, 578

Uveitis

Causes of uveitis in the general practice of ophthalmology, 35

Causes of uveitis in the general practice of ophthalmology (correspondence), 732

Clinical features and associated systemic diseases of HLA-B27 uveitis, 47

Corneal endothelial deposits in patients with cytomegalovirus retinitis, 391

Presumed ocular and central nervous system tuberculosis in a patient with the acquired immunodeficiency syndrome, 217

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

V

Vancomycin

Coagulase-negative *Staphylococcus* endophthalmitis after cataract surgery with intraocular vancomycin, 318

Comparative treatment of experimental *Staphylococcus aureus* endophthalmitis, 310

Varicella-zoster virus

Serologic and polymerase chain reaction analysis of intraocular fluids in the diagnosis of infectious uveitis, 650

Vein

Essential thrombocythemia and central retinal vein occlusion with neovascular glaucoma, 728

Unilateral open-angle glaucoma secondary to idiopathic dilated episcleral veins, 587

Vision

Reading-evoked visual dimming, 212

Visual field

Color Doppler imaging in patients with asymmetric glaucoma and unilateral visual field loss, 502

Neural networks to identify glaucoma with structural and functional measurements, 511

Prevent Blindness America visual field screening study (correspondence), 590

Prevent Blindness America visual field screening study (correspondence), 735

Visual pathway

Functional magnetic resonance imaging in homonymous hemianopsia, 258

Vitrectomy

Comparative treatment of experimental *Staphylococcus aureus* endophthalmitis, 310

Prospective randomized trial of vitrectomy or observation for stage 2 macular holes, 605

Vitrectomy for diabetic macular edema associated with a thickened and taut posterior hyaloid membrane, 405

Vitreoretinal surgery

Initial clinical experience with an erbium:YAG laser for vitreoretinal surgery, 414

Vitreous

Dislocation of the lens nucleus into the vitreous cavity after standard hydrodissection, 706

Vitrectomy for diabetic macular edema associated with a thickened and taut posterior hyaloid membrane, 405

Vogt-Koyanagi-Harada syndrome

Ultrasound biomicroscopic analysis of transient shallow anterior chamber in Vogt-Koyanagi-Harada syndrome, 720

ABSTRACT INDEX

A

Acquired immunodeficiency syndrome
Intravitreous and plasma concentrations of ganciclovir and foscarnet after intravenous therapy in patients with AIDS and cytomegalovirus retinitis, 234

Scope of the AIDS epidemic in the United States, 344

Acremonium sp.
Acremonium kiliense endophthalmitis that occurred after cataract extraction in an ambulatory surgical center and was traced to an environmental reservoir, 741

Aging
Caloric restriction and aging, 345

Alternative medicine
The metaphysics of holism: laughter in carnival with alternative medicine, 238

Anterior chamber
A comprehensive, reproducible, quick, and practical method of grading the anterior chamber angle, 111

Corneoscleral block excision of postoperative anterior chamber cysts, 106

Antineutrophil cytoplasmic antibody testing
The role of antineutrophil cytoplasmic antibody (c-ANCA) testing in the diagnosis of Wegener granulomatosis. A literature review and meta-analysis, 467

Apraclonidine hydrochloride
Long term effect of apraclonidine, 465

The short-term efficacy of apraclonidine hydrochloride when added to maximum tolerated medical therapy, 112

Aqueous humor
Curran, Barkan, and Chandler: a history of pupillary obstruction and narrow angle glaucoma, 339

A study of aqueous humor dynamics in keratoconus, 599

Trabecular meshwork and elastin, 465

Atopic dermatitis
Infraorbital crease, ethnic group, and atopic dermatitis, 600

B

Bell's palsy
Bell palsy and herpes simplex virus: identification of viral DNA in endoneurial fluid and muscle, 601

Beta-blocker
Serial administration of adrenergic antagonist and agonist ('pulsatile therapy') reduces the incidence of long-term drift to timolol in humans, 742

Blepharoplasty
Anatomic considerations in transconjunctival blepharoplasty, 343

Blepharospasm
Unilateral injection of botulinum toxin in blepharospasm: single fiber electromyography and blink reflex study, 601

C

Capsulorhexis
Retinal detachment following cataract surgery with capsulorhexis, 112

Capsulotomy
Effect of neodymium:YAG laser posterior capsulotomy on corneal grafts, 464

Carcinoma
External radiotherapy for carcinoma of the eyelid: report of 850 cases treated, 600

Cataract
Acremonium kiliense endophthalmitis that occurred after cataract extraction in an ambulatory surgical center and was traced to an environmental reservoir, 741

Bilateral cataract and high serum ferritin: a new dominant genetic disorder?, 232

Intraocular lens power calculation for eyes after refractive keratotomy, 340

Quality cataract surgery in Asia in the year 2000, 463

Retinal detachment following cataract surgery with capsulorhexis, 112

Simultaneous bilateral cataract extraction in the UK, 463

Central nervous system
Why are vertebrate nervous systems crossed?, 467

Chemoembolization
Treatment of uveal melanoma metastatic to the liver. A review of the M.D. Anderson Cancer Center experience and prognostic factors, 341

Chemotherapy
Treatment of uveal melanoma metastatic to the liver. A review of the M.D. Anderson Cancer Center experience and prognostic factors, 341

Children
Development and progression of diabetic retinopathy: adolescents at risk, 342

Diagnosis of night blindness and serum vitamin A level: a population-based study, 233

Impact of vitamin A supplementation on prevalence and incidence of xerophthalmia in Nepal, 340

Neurofibromatosis type 1 in children, 112

Oral clonidine premedication reduces vomiting in children after strabismus surgery, 343

Orbital fractures in children, 468

Prevalence of intracranial lesions in children initially diagnosed with disconjugate nystagmus (spasmus nutans), 234

Rehabilitation of a child with partial unilateral cryptophthalmos and multiple congenital anomalies, 108

The value of brain imaging in children with headaches, 234

Chlamydia sp.
Ocular chlamydial infections. Clinicomicrobiological correlation, 464

Chloramphenicol
Widespread ocular use of topical chloramphenicol: is there justifiable concern regarding idiosyncratic aplastic anaemia?, 743

Choroid
Risk factors for metastasis of small choroidal melanocytic lesions. Are we waiting too long?, 109

Clonidine
Oral clonidine premedication reduces vomiting in children after strabismus surgery, 343

Conjunctiva
Anatomic considerations in transconjunctival blepharoplasty, 343

Ocular chlamydial infections. Clinicomicrobiological correlation, 464

Surgery for pterygium using a conjunctival pedunculated flap slide, 598

Conjunctivitis
Ocular chlamydial infections. Clinicomicrobiological correlation, 464

Widespread ocular use of topical chloramphenicol: is there justifiable concern regarding idiosyncratic aplastic anaemia?, 743

Contact lens
Attitudes of successful contact lens wearers toward refractive surgery, 599

Peripheral corneal infiltrates, 105

Cornea
Effect of neodymium:YAG laser posterior capsulotomy on corneal grafts, 464

Functional measurements on the enlarged endothelial cells of transplanted corneas, 105

Hydroxypropyl methylcellulose for the treatment of severe dry eye associated with Sjögren's syndrome, 742

Intrastromal corneal ring: 12-month sighted myopic eyes, 598

Peripheral corneal infiltrates, 105

A study of aqueous humor dynamics in keratoconus, 599

Tear turnover and corneal epithelial permeability, 116

Corneal ring
Intrastromal corneal ring: 12-month sighted myopic eyes, 598

Cosmetic surgery
Adventures in liposuction, 747

Cryptophthalmos
Rehabilitation of a child with partial unilateral cryptophthalmos and multiple congenital anomalies, 108

Cyst
Corneoscleral block excision of postoperative anterior chamber cysts, 106

Cytomegalovirus
Pathogenesis of ocular cytomegalovirus infection in the immunocompromised host, 464

Cytomegalovirus retinitis
Intravitreous and plasma concentrations of ganciclovir and foscarnet after intravenous therapy in patients with AIDS and cytomegalovirus retinitis, 234

Ocular manifestations of HIV infection, 114

D

Dacryocystorhinostomy
Endoscopic dacryocystorhinostomy: surgical technique and results, 746

Diabetes mellitus
Development and progression of diabetic retinopathy: adolescents at risk, 342

Disappearance and formation rates of microaneurysms in early diabetic retinopathy, 743

Glycemic control in diabetes mellitus: have changes in therapy made a difference?, 743

Histamine ZO-1 and blood-retinal barrier permeability in diabetic retinopathy, 114

Impaired retinal artery blood flow in IDDM patients before clinical manifestations of diabetic retinopathy, 466

Progression of retinopathy after change of treatment from oral antihyperglycemic agents to insulin in patients with NIDDM, 466

Proliferative diabetic retinopathy is related to cardiovascular autonomic neuropathy in non-insulin-dependent diabetes mellitus, 466

Relation of glycemic control to diabetic microvascular complications in diabetes mellitus, 597

Residual β-cell function and HLA-A24 in IDDM. Markers of glycemic control and subsequent development of diabetic retinopathy, 343

Diabetic retinopathy
Development and progression of diabetic retinopathy: adolescents at risk, 342

Disappearance and formation rates of microaneurysms in early diabetic retinopathy, 743

Histamine ZO-1 and blood-retinal barrier permeability in diabetic retinopathy, 114

Impaired retinal artery blood flow in IDDM patients before clinical manifestations of diabetic retinopathy, 466

Proliferative diabetic retinopathy is related to cardiovascular autonomic neuropathy in non-insulin-dependent diabetes mellitus, 466

Relation of glycemic control to diabetic microvascular complications in diabetes mellitus, 597

Residual β-cell function and HLA-A24 in IDDM. Markers of glycemic control and subsequent development of diabetic retinopathy, 343

DNA
Familial exudative vitreoretinopathy, 113

Dorzolamide hydrochloride
Comparison of quality of life and patient preference of dorzolamide and pilocarpine as adjunctive therapy to timolol in the treatment of glaucoma, 235

Dyschromatopsia
The dyschromatopsia of optic neuritis, 115

E

Electroretinogram
Abnormal electroretinogram (ERG) associated with developmental brain anomalies, 107

Emmetropia
Physiological strategies for emmetropia, 106

Endophthalmitis
Acremonium kiliense endophthalmitis that occurred after cataract extraction in an ambulatory surgical center and was traced to an environmental reservoir, 741

Eye infections after refractive keratotomy, 599

Endothelium
Functional measurements on the enlarged endothelial cells of transplanted corneas, 105

Pathology of the iridocorneal-endothelial syndrome. The ICE-cell, 339

Enucleation
Klinisch-pathologische Studie an 817 Enukleationen (clinicopathological investigations of 817 enucleations), 468

Epithelium
Tear turnover and corneal epithelial permeability, 116

Esotropia
Surgical alignment prior to six months of age for congenital esotropia, 106

Eyelid
Anatomic considerations in transconjunctival blepharoplasty, 343

Dermatologic diagnosis and treatment of itchy red eyelids, 600

The differential diagnosis and classification of eyelid retraction., 111

External radiotherapy for carcinoma of the eyelid: report of 850 cases treated, 600

Infraorbital crease, ethnic group, and atopic dermatitis, 600

Infraorbital pigmented skin. Preliminary observations of laser therapy, 237

Surgery for upper eyelid retraction: three techniques, 111

Unilateral injection of botulinum toxin in blepharospasm: single fiber electromyography and blink reflex study, 601

F

Foscarnet
Intravitreous and plasma concentrations of ganciclovir and foscarnet after intravenous therapy in patients with AIDS and cytomegalovirus retinitis, 234

G

Ganciclovir
Intravitreous and plasma concentrations of ganciclovir and foscarnet after intravenous therapy in patients with AIDS and cytomegalovirus retinitis, 234

Genetics
Bilateral cataract and high serum ferritin: a new dominant genetic disorder?, 232

Macular pigment density in monozygotic twins, 233

Glaucoma
Comparison of quality of life and patient preference of dorzolamide and pilocarpine as adjunctive therapy to timolol in the treatment of glaucoma, 235

Curran, Barkan, and Chandler: a history of pupillary obstruction and narrow angle glaucoma, 339

Follow-up of argon laser trabeculoplasty: Is a day-one postoperative IOP check necessary?, 339

Histopathological observations on glaucomatous human eyes following neodymium:YAG laser cyclophotocoagulation, 110

Long term effect of apraclonidine, 465

Newer visual function tests in the evaluation of glaucoma, 235

Serial administration of adrenergic antagonist and agonist ('pulsatile therapy') reduces the incidence of long-term drift to timolol in humans, 742

Glycemia
Glycemic control in diabetes mellitus: have changes in therapy made a difference?, 743

Gonioscopy
A comprehensive, reproducible, quick, and practical method of grading the anterior chamber angle, 111

Graft
Effect of neodymium:YAG laser posterior capsulotomy on corneal grafts, 464

Graves' ophthalmopathy
Interleukin-1 (IL-1) receptor antagonist and soluble IL-1 receptor inhibit IL-1–induced glycosaminoglycan production in cultured human orbital fibroblasts from patients with Graves' ophthalmopathy, 745

H

Headache
The value of brain imaging in children with headaches, 234

Health care
Compliance with universal precautions among health care workers at three regional hospitals, 236

Extreme risk—the new corporate proposition for physicians, 345

Health policy report. Politics and public health, 469

Perspectives on the physician workforce to the year 2020, 237

Rationing health care and the need for credible scarcity: why Americans can't say no, 238

Top 10 ways for academic radiology departments to survive hard financial times, 470

Will competition change the physician workforce? Early signals from the market, 602

Hemangioma
Role of the pulsed dye laser in the management of ulcerated capillary haemangiomas, 746

Hemifacial atrophy
Progressive hemifacial atrophy (Parry-Romberg disease), 108

Hepatitis
Compliance with universal precautions among health care workers at three regional hospitals, 236

Hermansky-Pudlak syndrome
Ocular findings in Hermansky-Pudlak syndrome, 108

Herpes simplex virus
Bell palsy and herpes simplex virus: identification of viral DNA in endoneurial fluid and muscle, 601

Human immunodeficiency virus
Compliance with universal precautions among health care workers at three regional hospitals, 236

Ocular manifestations of HIV infection, 114

Scope of the AIDS epidemic in the United States, 344

Hydroxypropyl methylcellulose
Hydroxypropyl methylcellulose for the treatment of severe dry eye associated with Sjögren's syndrome, 742

I

Infants
Screening for retinopathy of prematurity: do former guidelines still apply?, 596

Injury
Ophthalmological complications as a manifestation of burn injury, 745

Insulin-like growth factor I
Treatment with insulin-like growth factor I alters capillary permeability in skin and retina, 342

Intraocular lens
Harold Ridley and the invention of the intraocular lens, 598

Intraocular lens power calculation for eyes after refractive keratotomy, 340

Simultaneous bilateral cataract extraction in the UK, 463

Intraocular pressure
Follow-up of argon laser trabeculoplasty: Is a day-one postoperative IOP check necessary?, 339

Long term effect of apraclonidine, 465

Serial administration of adrenergic antagonist and agonist ('pulsatile therapy') reduces the incidence of long-term drift to timolol in humans, 742

The short-term efficacy of apraclonidine hydrochloride when added to maximum tolerated medical therapy, 112

A study of aqueous humor dynamics in keratoconus, 599

Verapamil increases outflow facility in the human eye, 236

Iridocorneal-endothelial syndrome
Pathology of the iridocorneal-endothelial syndrome. The ICE-cell, 339

Iris
Neurofibromatosis type 1 in children, 112

K

Keratectomy
Clinical results of excimer laser photorefractive keratectomy: a multicenter study of 265 eyes, 236

Excimer laser photorefractive keratectomy, 236

Keratitis
Eye infections after refractive keratotomy, 599

Keratoconjunctivitis
Decreased reflex tearing is associated with lymphocytic infiltration in lacrimal glands, 741

Hydroxypropyl methylcellulose for the treatment of severe dry eye associated with Sjögren's syndrome, 742

Keratoconus
A study of aqueous humor dynamics in keratoconus, 599

Keratomileusis
Excimer laser in-situ keratomileusis (LASIK) for myopia of −2.00 to −20.00, 107

L

Lacrimal gland
Decreased reflex tearing is associated with lymphocytic infiltration in lacrimal glands, 741

Laser
Effect of neodymium:YAG laser posterior capsulotomy on corneal grafts, 464

Excimer laser in-situ keratomileusis (LASIK) for myopia of −2.00 to −20.00, 107

Follow-up of argon laser trabeculoplasty: Is a day-one postoperative IOP check necessary?, 339

Histopathological observations on glaucomatous human eyes following neodymium:YAG laser cyclophotocoagulation, 110

Infraorbital pigmented skin. Preliminary observations of laser therapy, 237

Lasers in ophthalmology, 237

Role of the pulsed dye laser in the management of ulcerated capillary haemangiomas, 746

Lupus erythematosus
Eye movement abnormalities in systemic lupus erythematosus, 467

M

Macular degeneration
Is the incidence of registrable age-related macular degeneration increasing?, 596

Macular pigment
Macular pigment density in monozygotic twins, 233

Medical education
Compensation to a department of medicine and its faculty members for the teaching of medical students and house staff, 469

Medication
Medication use and the risk of Stevens-Johnson syndrome or toxic epidermal necrolysis, 341

Melanoma
Intraocular melanoma linked to occupations and chemical exposures, 596

Risk factors for metastatic uveal melanoma after trans-scleral local resection, 744

Risk factors for residual and recurrent uveal melanoma after trans-scleral local resection, 744

Treatment of uveal melanoma metastatic to the liver. A review of the M.D. Anderson Cancer Center experience and prognostic factors, 341

Microaneurysm
Disappearance and formation rates of microaneurysms in early diabetic retinopathy, 743

Motility
Eye movement abnormalities in systemic lupus erythematosus, 467

Muscle
Anatomic considerations in transconjunctival blepharoplasty, 343

Muscles of a different 'color': the unusual properties of the extraocular muscles may predispose or protect them in neurogenic and myogenic disease, 745

Unilateral injection of botulinum toxin in blepharospasm: single fiber electromyography and blink reflex study, 601

Myopia

Clinical results of excimer laser photorefractive keratectomy: a multicenter study of 265 eyes, 236

Excimer laser in-situ keratomileusis (LASIK) for myopia of −2.00 to −20.00, 107

Excimer laser photorefractive keratectomy, 236

Intrastromal corneal ring: 12-month sighted myopic eyes, 598

Progression of myopia, 116

Retinal detachment after clear lens extraction in 41 eyes with high axial myopia, 741

N

Neurofibromatosis

Neurofibromatosis type 1 in children, 112

Retinal changes associated with neurofibromatosis 2, 109

Night blindness

Diagnosis of night blindness and serum vitamin A level: a population-based study, 233

Nystagmus

Prevalence of intracranial lesions in children initially diagnosed with disconjugate nystagmus (spasmus nutans), 234

O

Ocular hypertension

Serial administration of adrenergic antagonist and agonist ('pulsatile therapy') reduces the incidence of long-term drift to timolol in humans, 742

Optic neuritis

The dyschromatopsia of optic neuritis, 115

The Optic Neuritis Treatment Trial. Putting the results in perspective, 232

Optic neuropathy

Epidemic optic neuropathy in Cuba—clinical characterization and risk factors, 232

Orbit

Interleukin-1 (IL-1) receptor antagonist and soluble IL-1 receptor inhibit IL-1–induced glycosaminoglycan production in cultured human orbital fibroblasts from patients with Graves' ophthalmopathy, 745

Orbital fractures in children, 468

Surgical decompression in endocrine orbitopathy—a three-dimensional locating device ensures greater safety, 746

P

Parry-Romberg disease

Progressive hemifacial atrophy (Parry-Romberg disease), 108

Pars plana vitrectomy

Diagnostic pars plana vitrectomy. Report of a twenty-one year retrospective study, 109

Patients' rights

Patient advocacy in the 1990s, 601

Social, institutional, and economic barriers to the exercise of patients' rights, 601

Perimetry

Newer visual function tests in the evaluation of glaucoma, 235

Phacoemulsification

Quality cataract surgery in Asia in the year 2000, 463

Photorefractive keratectomy

Attitudes of successful contact lens wearers toward refractive surgery, 599

Pilocarpine

Comparison of quality of life and patient preference of dorzolamide and pilocarpine as adjunctive therapy to timolol in the treatment of glaucoma, 235

Pterygium

Surgery for pterygium using a conjunctival pedunculated flap slide, 598

Pupil

Curran, Barkan, and Chandler: a history of pupillary obstruction and narrow angle glaucoma, 339

R

Radiation therapy

External radiotherapy for carcinoma of the eyelid: report of 850 cases treated, 600

The rays that never were, 470

Radiology

Top 10 ways for academic radiology departments to survive hard financial times, 470

Refractive keratotomy

Eye infections after refractive keratotomy, 599

Intraocular lens power calculation for eyes after refractive keratotomy, 340

Refractive surgery

Attitudes of successful contact lens wearers toward refractive surgery, 599

Retina

Impaired retinal artery blood flow in IDDM patients before clinical manifestations of diabetic retinopathy, 466

Macular pigment density in monozygotic twins, 233

Progression of retinopathy after change of treatment from oral antihyperglycemic agents to insulin in patients with NIDDM, 466

Proliferative diabetic retinopathy is related to cardiovascular autonomic neuropathy in non-insulin-dependent diabetes mellitus, 466

Retinal changes associated with neurofibromatosis 2, 109

Retinal detachment after clear lens extraction in 41 eyes with high axial myopia, 741

Stereoscopic depth perception at high velocities, 343

Treatment with insulin-like growth factor I alters capillary permeability in skin and retina, 342

Retinal detachment

Retinal detachment after clear lens extraction in 41 eyes with high axial myopia, 741

Retinal detachment following cataract surgery with capsulorhexis, 112

Retinal pigment epithelium
Transplantation of human fetal retinal pigment epithelium rescues photoreceptor cells from degeneration in the Royal College of Surgeons rat retina, 597

Retinopathy
Progression of retinopathy after change of treatment from oral antihyperglycemic agents to insulin in patients with NIDDM, 466

Retinopathy of prematurity
Screening for retinopathy of prematurity: do former guidelines still apply?, 596

Risk management
The new religion of risk management, 747

S

Science
The prevalent distrust of science, 345

Sjögren's syndrome
Hydroxypropyl methylcellulose for the treatment of severe dry eye associated with Sjögren's syndrome, 742

Stereopsis
Stereoscopic depth perception at high velocities, 343

Stevens-Johnson syndrome
Medication use and the risk of Stevens-Johnson syndrome or toxic epidermal necrolysis, 341

Strabismus
Oral clonidine premedication reduces vomiting in children after strabismus surgery, 343

T

Tear
Tear turnover and corneal epithelial permeability, 116

Timolol
Comparison of quality of life and patient preference of dorzolamide and pilocarpine as adjunctive therapy to timolol in the treatment of glaucoma, 235

Serial administration of adrenergic antagonist and agonist ('pulsatile therapy') reduces the incidence of long-term drift to timolol in humans, 742

Toxic epidermal necrolysis
Medication use and the risk of Stevens-Johnson syndrome or toxic epidermal necrolysis, 341

Trabecular meshwork
Trabecular meshwork and elastin, 465

Trabeculoplasty
Follow-up of argon laser trabeculoplasty: Is a day-one postoperative IOP check necessary?, 339

Trauma
Role of the pulsed dye laser in the management of ulcerated capillary haemangiomas, 746

Tumor
Delivery of molecular medicine to solid tumors, 744

Differentialdiagnose und Prognose bei 112 exzidierten epibulbären epithelialen Tumoren (Differential diagnosis and prognosis of 112 excised epibulbar epithelial neoplasias), 341

External radiotherapy for carcinoma of the eyelid: report of 850 cases treated, 600

Prevalence of intracranial lesions in children initially diagnosed with disconjugate nystagmus (spasmus nutans), 234

Risk factors for metastasis of small choroidal melanocytic lesions. Are we waiting too long?, 109

Risk factors for metastatic uveal melanoma after trans-scleral local resection, 744

Risk factors for residual and recurrent uveal melanoma after trans-scleral local resection, 744

U

Uvea
Intraocular melanoma linked to occupations and chemical exposures, 596

Risk factors for metastatic uveal melanoma after trans-scleral local resection, 744

Risk factors for residual and recurrent uveal melanoma after trans-scleral local resection, 744

Treatment of uveal melanoma metastatic to the liver. A review of the M.D. Anderson Cancer Center experience and prognostic factors, 341

V

Verapamil
Verapamil increases outflow facility in the human eye, 236

Vision
Vision development in the monocular individual, 113

Visual field
Newer visual function tests in the evaluation of glaucoma, 235

Vitamin supplementation
Impact of vitamin A supplementation on prevalence and incidence of xerophthalmia in Nepal, 340

Vitreoretinopathy
Familial exudative vitreoretinopathy, 113

W

Wegener granulomatosis
The role of antineutrophil cytoplasmic antibody (c-ANCA) testing in the diagnosis of Wegener granulomatosis. A literature review and meta-analysis, 467

X

Xanthelasma
Lipid metabolism and apolipoprotein E phenotypes in patients with xanthelasma, 344

Xerophthalmia
Impact of vitamin A supplementation on prevalence and incidence of xerophthalmia in Nepal, 340
